WAGHAI SAPUTARA TRIP ORGANISED
BY ECO CLUB
Date: 28-8-2016

With great respect, it is to inform that on 28th August,2016 eco club organized a tour to Saputara.The bus departed from Valsad at 7:00 am in the morning and reached the WAGHAI botanical garden. The visit to the garden proved to be very important as the students got to know about various types of flora. There were a variety of climbers, herbs, shrubs, massive trees along with certain gymnosperms like cycas and so on. The students were provided with information regarding the usefulness of the plants by Dr.Dilipkumar D Patel. Leaving the garden, our next destination was at the medical garden which had a wide variety of medical plants such as Hemidesmus indicus, Aloevera,Withania somnifera, Ocimum sanctum,Abrus precatorius and many more. Visit to the dense forest near the banks of Ambika river was also done This forest has various plants such as Teakwood, Gmelina and many more.After that, we reached Saputara where students got to know about the culture and tradition of the local tribes. After witnessing the sunset, we left. Saputara to return to Valsad and reached Valsad by 8:00 pm
