Report on
Swachh College Campus Cleaning activity conducted
by NSS Unit
16 th December 2016

Clean environment is an indicator of progress of human being and with the motto of clean environment a College campus cleaning programme was conducted by NSS unit on 16 th December, 2016 at the college campus. A total of 74 NSS volunteers participated in the programme. Prof.R.R.Solanki and Prof.D.R.Patel initiated cleaning activities among volunteer.

The NSS unit of our college conducted a campus cleaning programme under the guidance of Prof.R.R.Solanki and Prof.D.R.Patel at our college premises. All the NSS Volunteers and students were engaged in this cleaning programme. All students associated with cleaning programme were allocated with a particular area for cleaning. The NSS volunteers gathered to clean the surroundings of the individual buildings in the campus. NSS volunteers enthusiastically collected plastic wastes, tea cups, weeds, and dry leaves spread over the surrounding areas. Students were asked to collect all the stones from the ground separately in different sacs.

The renewable such as dry leaves, twigs, papers etc. and non-renewable wastes such as carry bags, plastic items etc. were collected separately. The renewable waste was collected and burnt.

Invasion of mesquite trees in the college campus has been a long concern. Its encroachment reduces herbaceous resources and causes land dryness by sucking ground water. Our NSS volunteers actively took initiative to remove mesquite from the University campus.

The main objective of cleanliness programme was to create an awareness among the Students. The whole cleaning drive was quite inspiring and motivating for the NSS team members. Principal Dr.Vikas Desai and Vice Principal Dr.T.G.Gohil congratulate NSS programme officers and Students for a nice cleanliness programme.

Principal,
B.K.M. Science College,
Valsad, Gujarat, India.
