WOMEN CELL SELF DEFENCE PROGRAM

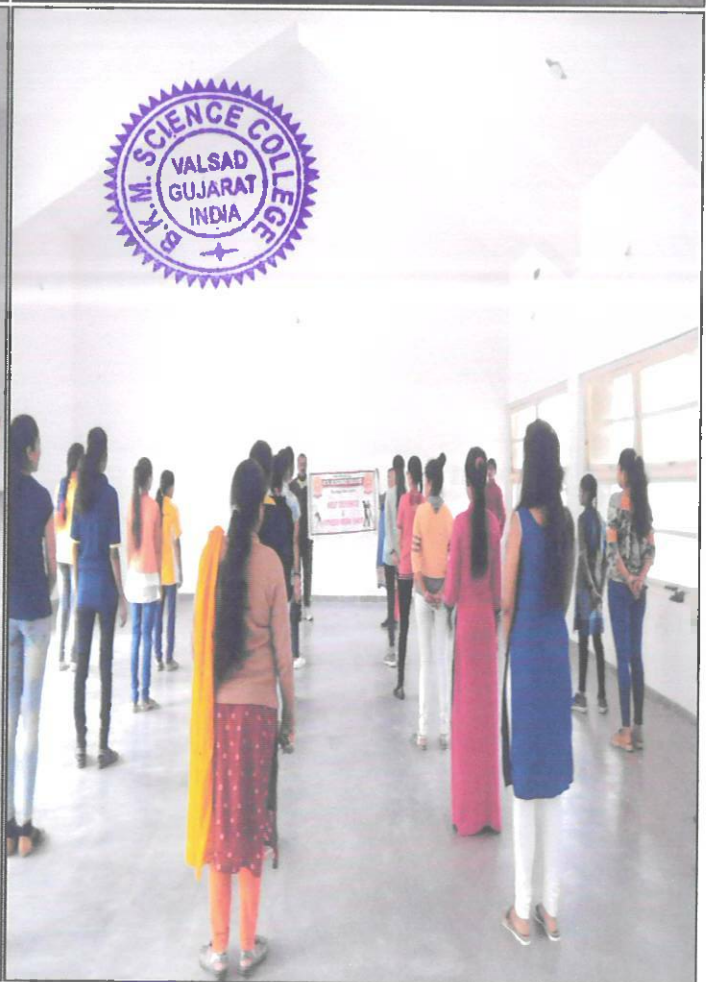

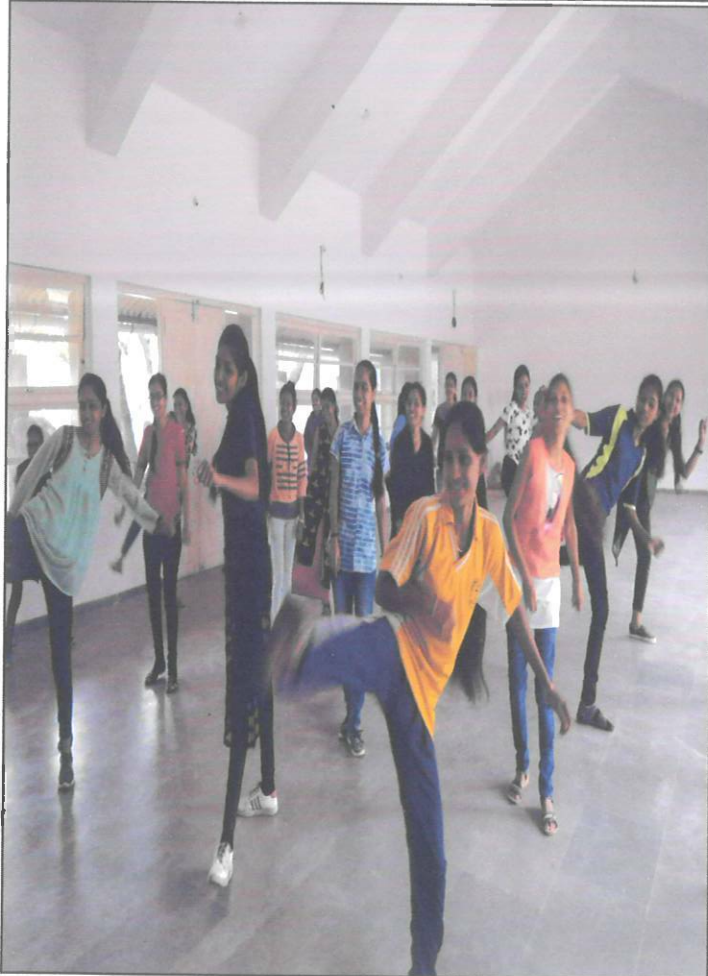

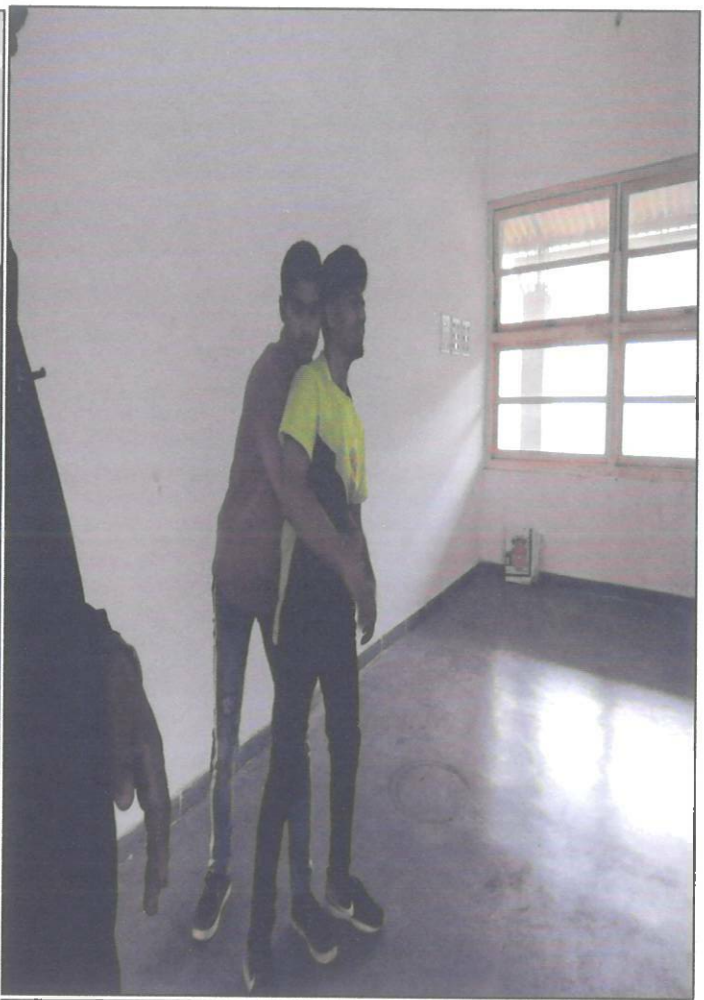

22-1-2019

It is necessary to make women strong in today's world. As a result, our college has organised a Self-Defense Program for the college's female students in order to prepare them to fight in any situation. They were taught karate, firearms training, and other protective techniques as part of the programme. Experts were recruited to participate in this programme so that our female students could receive complete instruction and become sufficiently strong.

Principal,
B.K.M. Science College,
