**A LECTURE ON AIDS BY RED RIBBON CLUB
9 th December 2016**

To raise awareness, educate and improve the understanding of HIV as public health programme and to create awareness to the Aids pandemic caused by the spread of HIV infection, awareness programme on Prevention of HIV/AIDS was organized by Red Ribbon Club in association with B.K.M.Science College on 9th December, 2016 at the College premises. In the beginning a floral welcome was given to speaker.

The welcome speech was given by the Principal Dr.Vikas Desai keeping in mind the motto of health precautions related to HIV.

Thereafter Director of Blood Bank Valsad and noted Microbiologist Shri.Yazdi Italiya delivered a lecture based on HIV/AIDS issues. He explained signs and symptoms of HIV/AIDS i.e. How is it transmitted? He explained key ways to prevent the transmission. Moreover, he gave a message 'Awareness is the best prevention for AIDS'.

After the lecture there was a discussion on the topic like 'mosquito bite cannot spread HIV', 'sharing clothes cannot spread HIV', Shaking of hands cannot spread etc. The queries were answered by the speaker.

Further, around 90 students attended the program and they were given information about the concept of Red Ribbon Club, its objectives and the life skills which have been run by it with the help of power point presentation. It was very enriching and enlightening lecture for the students.

The vote of thanks was given by the convener Prof. D.R.Patel.
