Having its majority of people living in villages, it is necessary for a country like India to make her students aware of the realities of rural India. Rural development is the right parameter of our progress. Eradication of rural problems has been our priority. We aim at maximizing students' participation in activities under this cluster.

Following activities/efforts are taken up:

- Adoption of village to give Students firsthand experience of the life in villages.
- Visit to village and schools and colleges with to spread awareness

Moreover, efforts have to be directed upon inculcating philosophy of nationalism and understanding of internationalism among students. Schemes like adoption of a plant, a village and environmental awareness are special focus of this cluster.
